EDUCATION

B.Tech in Computer Science & Engineering • ITER, SOA University, Bhubaneswar **CGPA: 9.11/10** | 2024 – 2028
Class XII (PCM with IT) • Odisha Board of Secondary Education **85%** | 2022 – 2024

EXPERIENCE

College Ambassador | Techfest, IIT Bombay Jun 2026 – Present

- Selected as a **College Ambassador** for Techfest IIT Bombay, contributing to web development, marketing, event management, and creative initiatives.
- Conducted **sponsorship, SEO, and competitor research** to identify key partnership and digital outreach opportunities.
- Created **professional reports and campaign concepts** for national-level project submissions.
- Executed **community engagement and digital outreach strategies** targeting student audiences and technical communities.

TECHNICAL PROJECTS

AI Career Mentor | Live Demo | Solo Full-Stack Developer March 2026 – Present

- Architected a **decoupled microservices system** with a Next.js 14 SPA on Vercel and a FastAPI gateway on Render, utilizing Neon Serverless Postgres (with PgBouncer connection pooling) and Upstash Redis.
- Designed a **parallel LangGraph DAG** to orchestrate 7 specialized AI workflows, achieving a ~60% processing latency reduction via asynchronous fan-out/fan-in pipelines streaming results through Server-Sent Events (SSE).
- Optimized **memory footprint** by engineering a Hybrid Semantic RAG system (ChromaDB + in-memory SequenceMatcher fallback) to prevent container crash failures on resource-constrained 512MB RAM allocations.
- Developed a **real-time full-duplex Hinglish Voice Coach** using Gemini Live WebSocket API (16/24kHz audio) and an interactive 7-phase mock interview FSM with Monaco Editor integration and Edge-TTS audio synthesis.
- Built a **secure Google OAuth 2.0 system** with JWT refresh token rotation, SlowAPI rate-limiting, and a whitelisted Admin Observation & Telemetry Console tracking active WebSocket connections and DailyAnalytics costs.
- Established a **robust CI/CD pipeline** using GitHub Actions, executing frontend builds and backend pytest (116 unit tests) with automatic package audits (pip-audit) and GHCR container deployment.

VolunteerIQ | Live Demo | Lead Backend Developer • Team ClutchCode Mar 16, 2026 – Apr 13, 2026

- Developed an **AI-driven crisis-response coordination platform** for NGOs (submitted to Google Solution Challenge 2026) converting survey uploads into geospatially-mapped tasks on Mapbox GL.
- Engineered **backend matching algorithms** using Gemini 1.5 Pro to analyze field data and map tasks, ranking volunteers based on skills, availability, and geographic proximity.
- Built **secure FastAPI REST endpoints** and Firestore integrations with server-side verified Firebase Google Authentication.

TECHNICAL SKILLS

- Languages:** Python, Java, JavaScript, SQL
- Frontend:** Next.js, React, Tailwind CSS, Axios
- Backend:** FastAPI, LangGraph, LangChain Core, Pydantic, SQLAlchemy 2.0, HTTPX, Loguru, WebSocket, Uvicorn, Prometheus, Sentry, SlowAPI, pdfplumber, edge-tts, Postman Test Suite, Pytest
- AI / LLM & RAG:** Groq (Llama 3.3 70B), NVIDIA NIM, Gemini Live API, Tavily, Serper.dev, DuckDuckGo
- Databases:** Neon Postgres, SQLite, Upstash Redis, ChromaDB (Vector Store)
- Auth & Security:** JWT (python-jose), Google OAuth 2.0, Firebase Authentication, bcrypt, CORS Middleware, Rate Limiting, HTTPS TLS, .env Secrets
- DevOps & Infra:** Docker, GitHub Actions (CI/CD), Vercel, Render.com, GHCR
- Tools:** VS Code, Git, Swagger UI, Cline, GitHub Copilot, Gemini Code Assist, OpenAI Codex, AntiGravity IDE

ACHIEVEMENTS & CERTIFICATIONS

- Google Cloud Arcade Program (2024–25):** Completed GCP challenges, earning 75 Arcade Points across hands-on cloud labs.
- Solved 200+ problems across GFG and LeetCode**, awarded GFG Certificate and T-shirt.
- Active participant in Developer Communities (GDG Events) and college tech events**, exploring AI systems, cloud infrastructure, and backend engineering.
- Competitions:** Participated in multiple IIT/NIT coding contests and hackathons focused on AI systems, backend engineering, and algorithmic problem solving.
- Hackathons:** Built production-grade MVP solutions for Microsoft AI DevDays (\$80K+ prize pools), Amazon Nova AI (\$95K+ prize pools), and Google Solution Challenge 2026, delivering deployable full-stack systems under strict constraints.
