

ANIL PRADHAN

SOFTWARE ENGINEER | BACKEND & AI

Backend-focused Computer Science undergraduate specializing in AI-powered applications, scalable backend systems, and intelligent software using FastAPI, LangGraph, and RAG.

Dell Hackathon — National Finalist

Open to Internships

EDUCATION

Institute of Technical Education & Research (ITER), SOA University

Bachelor of Technology (B.Tech), Computer Science & Engineering

2024 - 2028 | Bhubaneswar, Odisha

Council of Higher Secondary Education (CHSE), Odisha

Class XII (Higher Secondary) — Physics, Chemistry, Mathematics with IT

2022 - 2024 | Odisha

Score: 85%

EXPERIENCE

College Ambassador (Internship) | Techfest, IIT Bombay

Jul 2026 - Present

- Completed verified tasks across web development, event management, and creatives — including landing page builds, event ideation, and social media content for Asia's largest tech festival.
- Executed marketing, outreach, and media tasks — including sponsorship communication, SEO research, and digital ecosystem mapping — as part of a performance-based ambassador program.

TECHNICAL PROJECTS

AI Career Mentor | [Live Demo](#) | [GitHub](#)

Mar 2026 - Jul 2026

Solo Full Stack Developer

- Built a multi-agent AI system using LangGraph's parallel DAG to orchestrate 4 agents (Resume, Market, Roadmap, LinkedIn) with shared state, cutting analysis latency by ~60%.
- Developed a real-time mock interview engine using a 7-phase FSM over WebSockets with a live Monaco code editor and resume-personalized questions.
- Built a RAG-powered roadmap generator using ChromaDB vector search to create personalized 8-week learning paths with quality-scored resources.
- Designed a fault-tolerant backend (FastAPI, PostgreSQL, Redis) with multi-provider LLM failover and a 113-test CI/CD suite.
- Used AI-assisted development (Claude Code, Codex, and Antigravity) to design high-level architecture — DAG structure, FSM design, and failover strategy — for solo delivery of a production-grade platform.

Tech: FastAPI • LangGraph • Next.js • ChromaDB • Redis • Docker • ONNX

TaskPilot AI | [Live Demo](#) | [GitHub](#)

Jun 2026 - Jul 2026

Integration Lead | Team IdeaForg-E

- Built an 8-agent AI system that collects, cleans, and merges tasks from 5 sources (GitHub, Slack, Email, Calendar, Meeting notes), using fuzzy matching plus LLM checks to catch duplicates.
- Built a 7-factor system to rank tasks by urgency, deadline, and impact, with clear reasons for each rank, plus a smart daily planner that works around your meetings.
- Added backup AI models (Groq → NVIDIA NIM → local rules) so the app never breaks, and a chat assistant that can add urgent tasks and instantly re-rank everything.

Tech: FastAPI • React • SQLite • Groq/NVIDIA NIM

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, SQL

Backend & APIs: FastAPI, REST APIs, WebSockets, LangGraph, SQLAlchemy, Pydantic, JWT, OAuth 2.0

Databases: PostgreSQL (Neon), SQLite, Redis (Upstash), ChromaDB

DevOps & Cloud:

Docker, GitHub Actions, Render, Vercel, Git, Postman

Frontend:

React, HTML, CSS, Tailwind CSS

AI / GenAI:

RAG, Agentic AI, Multi-Agent Systems, LLM Integration, Semantic Search

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Runner-Up — Dell FutureMinds AI Hackathon 2026:** Advanced through a 4-stage national selection (8,000+ participants → 370 → Top 10 → Top 6 Grand Finalists) to secure 3rd position; presented final solution to Dell jury, senior leaders, and employees at Dell Bengaluru office.
- International Hackathons:** Built and deployed AI products in three international hackathons — **Microsoft AI Dev Days**, **Amazon Nova AI Challenge**, and **Google Solution Challenge**.
- Round 2 Qualifier (Real-World Business Development) — FlowFinance x Techfest IIT Bombay Growth Challenge:** Designed a GTM strategy deck (platform analysis, customer personas, acquisition/retention framework) for FlowFinance (AI SMB fintech platform) with real customer outreach.
- 100+ Day DSA Streak:** Maintained a 100+ day coding streak on GeeksforGeeks' 160 Days of Code Challenge, solving DSA problems daily — recognized with a GFG reward (T-shirt) for consistency.
- Google Cloud Arcade:** Completed **75+ Google Cloud Arcade points** through hands-on labs on Google Cloud services, earning official rewards from Google Cloud.
- Certifications:** Wells Fargo Software Engineering Job Simulation (Forage), Cisco Python Essentials 2, HackerRank Java / Python / SQL / Problem Solving (Basic), IBM AI Fundamentals.
