Class XII (PCM with IT) • Odisha Board of Secondary Education **85%** | 2022 – 2024

EXPERIENCE

College Ambassador | Techfest, IIT Bombay Jun 2026 – Present

- Selected as a **College Ambassador** for Techfest IIT Bombay, contributing to web development, marketing, event management, and creative initiatives.
- Conducted **sponsorship, SEO, and competitor research** to identify key partnership and digital outreach opportunities.
- Created **professional reports and campaign concepts** for national-level project submissions.
- Executed **community engagement and digital outreach strategies** targeting student audiences and technical communities.

TECHNICAL PROJECTS

AI Career Mentor | Live Demo | Solo Full-Stack Developer March 2026 – Present

- Architected a **production-grade multi-agent AI platform** using LangGraph, orchestrating 7 specialized AI workflows for resume intelligence, career planning, interview preparation, voice coaching, and market analysis.
- Designed a **parallel DAG orchestration pipeline** executing independent AI agents concurrently, reducing end-to-end workflow latency by ~60% while maintaining structured state management and deterministic result aggregation.
- Implemented a **hybrid Retrieval-Augmented Generation (RAG) pipeline** combining semantic vector search (ChromaDB) with metadata-aware retrieval to improve response grounding, reduce token consumption, and optimize context retrieval efficiency.
- Built **scalable backend services** using FastAPI, PostgreSQL, Redis, and WebSockets/SSE, enabling real-time AI streaming, persistent session management, caching, authentication, and high-concurrency communication.
- Integrated **multiple LLM providers** (Groq, NVIDIA NIM, Gemini Live) with provider failover, validation pipelines, and structured output enforcement to improve reliability and production resilience.
- Engineered **enterprise-grade software practices** including Dockerized deployment, CI/CD automation, comprehensive testing, observability, and API validation, resulting in a maintainable and production-ready AI application.

VolunteerIQ | Live Demo | Lead Backend Developer • Team ClutchCode Mar 16, 2026 – Apr 13, 2026

- Developed an **AI-driven crisis-response coordination platform** for NGOs (submitted to Google Solution Challenge 2026) converting survey uploads into geospatially-mapped tasks on Mapbox GL.
- Engineered **backend matching algorithms** using Gemini 1.5 Pro to analyze field data and map tasks, ranking volunteers based on skills, availability, and geographic proximity.
- Built **secure FastAPI REST endpoints** and Firestore integrations with server-side verified Firebase Google Authentication.
